

ALEXIUC VLAD

Computer Science Student

About Me

As a computer science student, my passion for programming and keen enthusiasm for logical thinking shape my academic pursuits. Eagerly anticipating my first internship in programming, I am a socially adept individual who thrives on teamwork. Quick to learn and adaptable, I bring a dynamic approach to problem-solving, fueled by a genuine passion for collaboration and shared success.

EXPERIENCE

Eat Like a Man

Arad / Timisoara - Romania

2020 - 2022

I started working here as a highschool student, a transformative period where I acquired vital skills. This experience significantly contributed to my proficiency in collaborative teamwork, adept time management, and the cultivation of a pivotal trait—Effective Communication.

Garwoods Grill & Pier

Lake Tahoe, California - USA

2023 - 2023

Engaged in a pivotal summer role between my college years, an experience that proved instrumental in my personal and professional growth. During this challenging period, I embraced and honed essential traits, including adaptability, time management, effective communication, initiative, integrity, and a steadfast commitment to professional ethics. This transformative experience has enriched my skill set and solidified my dedication to excellence in every endeavor.
